Summary of Key Points
Analysis of Exit Destinations by County, Program Type, and Organization

For April 2019

C. Peraro Consulting, HMIS Administrator

The HMIS admin team completed analysis of client exit destinations from HMIS program discharge records for the month of April 2019 (n = 1,127). The analysis presents findings by county, over program type, and by org/program.

The summary tables show the total exits by destination category, along with permanent housing exit rates. Analysis also includes the total number of exits with unknown exit destination type along with the corresponding exit rates.

Key findings of the monthly reporting include:

- In aggregate, the PH exit rate for April was 51%, with 572 of 1,127 exits leaving to PH destinations, an increase compared to March 2019 (43%). April's PH exit rate of 51% is the same as the average PH exit rate reported over all months in 2018.
- Of the 572 PH exits, Rapid Re-Housing programs exited 156 clients to PH (27%), Homeless prevention programs exited 144 clients to PH (25%), Emergency Shelter programs exited 130 clients to PH (23%), Transitional facilities exited 80 clients to PH (14%) and Outreach programs exited 33 clients to PH (6%).
- Street Outreach and Emergency Shelter project types should not be evaluated solely on exits to PH. Often, placements into institutional settings, transitional shelters, or residential projects are positive outcomes for these project types and the clients within.
- April PH rates descending by county were Hawaii (67%), Kauai and Oahu (51%), and Maui (39%).
- Homeless Prevention and Rapid Re-Housing programs' PH exit rates increased in April after a low point in March; representing an increase to 99% from 80% for Homeless Prevention, and to 78% from 43% for Rapid Re-Housing programs. Due to the inherent nature of these programs, one would expect that these rates be near 100%.
- The missing exit data rate for April (14%) decreased after the jump in March (25%). April's missing exit rate was lower than the average for all months in 2018 (16%).
- Maui had the greatest proportion of exits to unknown locations in April (19% with 32 of 172 exits). The proportion of Oahu and Kauai exits to unknown locations were both 14% in April. ES and Outreach projects accounted for most of these exits.
- Kauai (55%) and Oahu (41%) Street Outreach programs had the highest rates of missing exit data in April.
