For May 2021

Ka Mana O Na Helu, HMIS Administration

The HMIS administrative team completed analysis of client exit destinations from HMIS Bridging the Gap program discharge records for the month of May 2021 (n = 246). This analysis presents findings by county, over program type, and by org/program.

The summary tables show the total exits by destination category, along with permanent housing (PH) exit rates. The analysis also includes the total number of exits with unknown exit destination type along with the corresponding exit rates. Exits for Services Only programs are no longer included in this report as of February 2021.

Key findings of the monthly reporting include:

- In aggregate, the PH exit rate for May was 52%, with 127 of 246 exits leaving to PH destinations, a decrease compared to April (55%).
- Of the 127 exits to PH, Homeless Prevention programs exited 54 clients to PH (43%), Rapid Re-housing programs exited 25 clients to PH (20%), Emergency Shelter (ES) exited 20 clients to PH (16%), Permanent Support Housing each exited 19 clients to PH (15% each), Street Outreach programs exited 8 clients to PH (6%), and Transitional Housing (TH) exited 1 client to PH (1%)
- May PH exit rates descending by county were Hawaii (65%), Maui (50%), and Kauai (33%).
- The PH exit rate was 100% for Homeless Prevention and Rapid Re-housing programs in May, the same rate for HP and an increase for RRH, compared to April. Due to the inherent nature of these programs, one would expect that these PH exit rates would be near 100%.
- The missing exit data rate for May was 22%, an increase compared to April (16%). As in April, this includes more “auto exits” than in recent months, which contributed to the high missing exit data rate (e.g. there were 52 auto exits in May compared to 14 auto exits in March).
- Kauai had 38 exits to unknown locations in May, Hawaii had 8, and Maui had 7 and exits to unknown destinations.
